

Simplify, scale and provide exceptional guest experiences with our one-stop commerce platform. Lightspeed is more than a POS—it's the center of your restaurant.

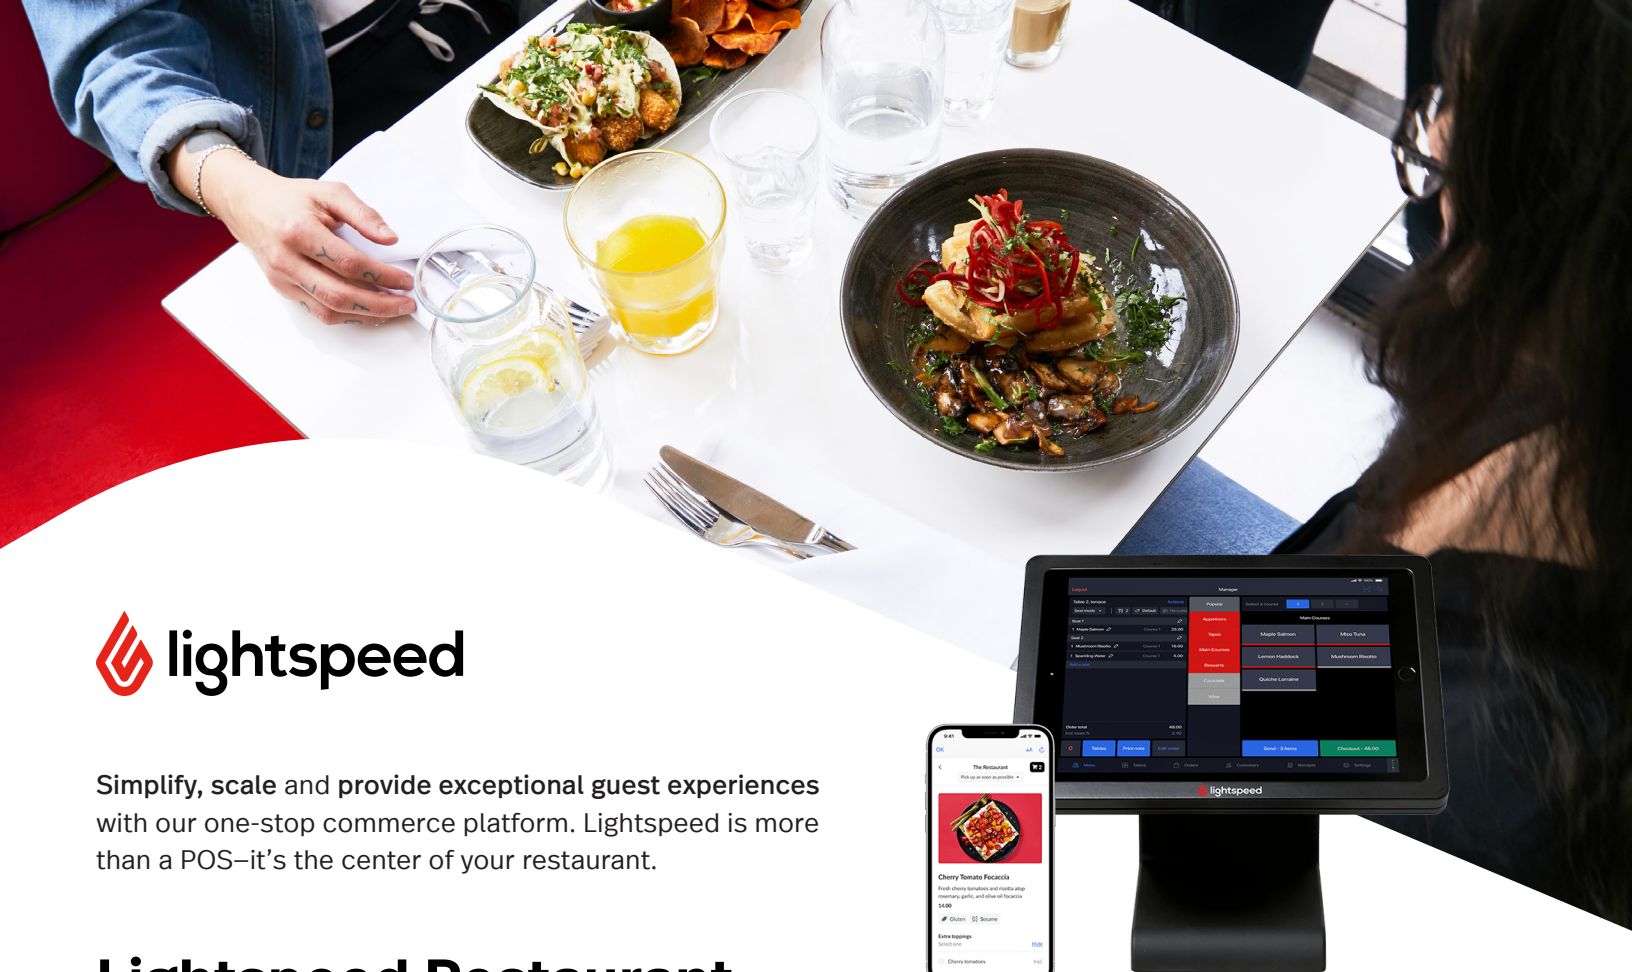

## Lightspeed Restaurant

Lightspeed Restaurant POS is an intuitive, fully integrated restaurant management platform. Features, add-ons and integrations work together to give your guests and staff a seamless experience. Increase your profit margins and decrease your pain points.

### Key features of Lightspeed Restaurant

Start streamlining your business operations from day one with these features pre-built into Lightspeed's user-friendly system.

- ✓ **Offer contactless payments and ordering**  
Prioritize safety and convenience for your guests and staff. Accelerate transaction times. Turn tables quicker. Help avoid manual errors.
- ✓ **Prep for each day with Daily Digest**  
Get important updates delivered to your inbox every morning. Your detailed breakdown of the previous night's service includes sales reports and staff notes.
- ✓ **Stay in control with Table Mode**  
Use your POS or mobile app to move tables and adjust the floor plan of your restaurant. Your staff will always know exactly where each order goes.
- ✓ **Turn tables faster with bill splitting**  
Lightspeed's intuitive bill splitting feature allows servers to quickly and easily split bills by seat, item or amount, resulting in faster turn times and happier guests.
- ✓ **Access reports from anywhere**  
Check in on sales reports, server performance, menu management and more from your POS or mobile device.
- ✓ **Feel secure with top-notch onboarding and support**  
Your system is backed by our customer support team, available 24/7/365 via phone or chat.

# Customizable Lightspeed for your restaurant

Everything you need, when you need it. Add more tools to Lightspeed Restaurant as your restaurant evolves and grows.

## Advanced Inventory

Automated inventory management gives your staff more time to focus on guests

## Advanced Insights

Increase guest retention, predict popular dishes and improve staff performance

## Delivery

Consolidate online orders from multiple third-party apps on one single screen

## Order Anywhere

Avoid third-party fees and accept commission-free, contactless online orders

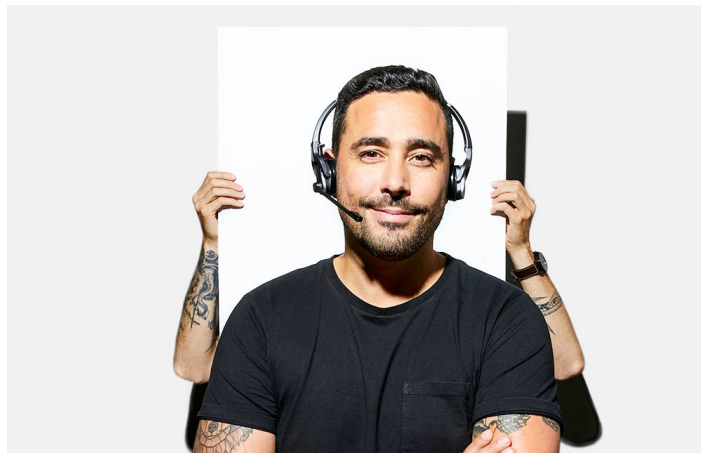

“

*I've used Aloha, POS Touch, Micros. I've used pretty much everything out there and once you buy it, you are just stuck with it. But with Lightspeed, it's an app and it keeps evolving, which I like.*

”
